Reception Maths Curriculum Map

*The following long term plan has been devised using the White Rose Maths scheme of learning for Reception. Development Matters and the NCETM typical progression charts have been used to ensure small steps are made which will enable our children to have a deep understanding of maths. Maths is taught every day through small group work and activities. Children are also able to practice their maths skills throughout our classroom when they are playing independently within continuous provision. Where possible maths will be linked to the children's interests.
